Notes to Instructor _____

This one day, 8-hour training block consists of six lessons. The training should be divided into two half-day sessions with a meal break in between. Breaks are scheduled throughout.

The Training Support Package is organized to provide the instructor with the material to be covered, slides, and recommended times and format for each task. Suggested delivery formats are contained in sections labeled "Notes to Instructor." Several sections have slides that accompany the presentation; these slides are included in the body of the presentation notes for easy reference for the instructor. Additionally, shaded blocks labeled "Background for the Instructor" are included to provide the instructor with background information that may be of use in fielding questions. The background information is not designed for inclusion in the presentation unless questions arise pertaining to the related topic.
